## RIGHT TRACK

Asset tracking shouldn't leave you scratching your head.

With Right Track, equipment management becomes straightforward and reliable – just like it should be. The secure, web-based asset management platform offers real-time updates to ensure assets are always accounted for and maximizing your revenue.

The best part is, we use the system ourselves, so we know it works.

### LOCATION & STATUS

- Track asset movement efficiently
- Live status updates
- Organize customer data for streamlined operations
- Rental assets visible at first log in

### PM & REPAIR RECORDS

- Stay ahead of upcoming PM due dates
- Approve & deny service requests to monitor asset value
- Download complete conformance history

### REPORTING & DATA

- Access RWM invoices in 2 clicks
- Manage patient revenue
- Monitor device utilization for optimal inventory levels
- Track all shippable assets
